

DURA® PROFESSIONAL

INDOOR VELOUR CARPET

Charles
LAWRENCE
SPORTS SURFACES

Dura® Professional is a tufted velour carpet designed for indoor tennis courts by Germany's leading specialist manufacturer. Its short, dense pile gives a consistent medium-speed bounce popular with players at all levels and has excellent long-term wear resistance.

The Dura® Professional carpet is made of 100% polyamide yarn, with a textile backing that is normally bonded directly to a concrete base slab or other hard surface. It is comfortable to play on, kind to joints and muscles, and highly durable by virtue of its combination of yarn material and very dense pile.

MAINTENANCE & RENEWAL

Routine maintenance: Vacuum regularly to remove dirt and other loose material.

Professional maintenance: Special cleaning solutions are available to remove stubborn stains. Renewal of the carpet will be needed after typically 8 - 10 years, depending on intensity of use.

FEATURES & BENEFITS

Consistent performance characteristics suit players of all standards.

Inbuilt resilience and **excellent foot grip** encourage safe, confident movement.

Wide range of colour options can be used to create a distinctive visual style.

Noise absorbent for quieter play indoors.

Permanently inlaid play lines last the lifetime of the surface.

Long-lasting, low-maintenance carpet easy to renew at moderate cost.
