

INDOOR SPORTS CARPETS

CHARLES LAWRENCE
SURFACES

Charles Lawrence Surfaces offer a range of specialist indoor sports carpets that are designed for sports such as tennis and badminton and can be found at many of the country's leading racquet sport centres.

The system utilises a short, dense velour pile that gives a consistent medium speed game and bounce that is popular with both players and coaches at all levels.

It is comfortable to play on, kind to joints and muscles, and highly durable by virtue of its combination of yarn material and very dense pile. The carpets are available in a wide combination of colours, producing a visually striking installation. Indoor sports carpets have the added benefit of improving the acoustic characteristics within the hall.

The indoor carpet system has a textile backing that is normally bonded directly to a concrete base slab or similar hard surface. Our experienced staff can offer advice on suitable bases, or undertake the baseworks if preferred. Please call Charles Lawrence Surfaces 01636 615866 to arrange a site visit, or alternatively email sales@charleslawrencesurfaces.co.uk for further information.
