

# CASE STUDY

## MARK HALL ACADEMY, HARLOW

**With over 40 years experience of installing sports surfaces, Charles Lawrence Surfaces is one of the foremost sports & leisure contractors in the United Kingdom.**

We are continually exploring new engineering and construction methods to enable us to deliver the best construction; we also work with Europe's leading synthetic grass manufacturers to ensure that we can offer the best surface solution for each individual client's requirements. Our aim is to provide quality installations at competitive prices, all delivered via our professional and approachable team.

We operate nationwide and are able to undertake works ranging from the smallest repair right up to multi-million pound stadia schemes involving the construction of changing facilities, clubhouses and stands.

The client on this project was Mark Hall Academy, Harlow. This was a refurbishment of an existing synthetic pitch, the existing carpet and shockpad were uplifted and removed. All works were completed in an 8 week timescale.

### Mark Hall Academy, Harlow

- Area of the pitch was 7526m<sup>2</sup> with a 50mm pile 3G sand/rubber filled carpet including shockpad and line markings for football
- Ball stop netting was installed to full width of pitch
- New set of football goals erected to complete the installation and boot wipers were installed
